CLASS REUNION YEARS

DENTAL AND DENTAL HYGIENE
1948 65th year 1983 30th year
1953 60th year 1988 25th year
1958 55th year 1993 20th year
1963 50th year 1998 15th year
1968 45th year 2003 10th year
1973 40th year 2008 5th year
1978 35th year

So that you will be seated with your class, it is very important that you indicate your class year on the registration form.

2013 Alumnus of the Year
LeRoy I. Strohman, D.D.S.
(Class of 1958)
Detailed information about Dr. Strohman’s career and contributions to dentistry will be available at the Dental Alumni Banquet.

2013 Educator of the Year
Henry W. Fields, Jr., D.D.S., M.S.
(Class of 1973)
Detailed information about Dr. Field’s career and contributions to dentistry will be available at the Dental Alumni Banquet.

2013 Educator of the Year – Posthumously
Rhys B. Jones, D.D.S., M.S.
(Class of 1973)
Detailed information about Dr. Jones’ career and contributions to dentistry will be available at the Dental Alumni Banquet.
EVALUATING DIAGNOSTIC TESTS IN GENERAL DENTAL PRACTICE

This presentation will describe the validity and clinical usefulness of diagnostic tests in dentistry (and in health care overall). Examples of specific modalities to be discussed include DIAGNOdent, Spectra, Velscope, electric pulp testers, cone-beam CT (and radiographs in general), Vizilite, and toluidine blue rinse.

Daniel J. Caplan, DDS, PhD, is Professor and Head, Department of Preventive & Community Dentistry, College of Dentistry, The University of Iowa. Dr. Caplan received his DDS in 1988 from The University of Iowa, his GPR Certificate in 1989 from the VA Medical Center in Minneapolis, and his PhD degree in 1995 from the University of North Carolina. Dr. Caplan’s research interests include relationships between oral and systemic diseases and oral health in elderly populations.

PURSUIT OF PERFECT ORAL HEALTH

There is an increasing emphasis on translational research in the oral health research community. The skill set to take great inventions in the laboratory and make them relevant to the daily care of patients is unlikely to occur in one place. This presentation will share the latest evidence on why collaborative approaches are imperative to helping scientists solve our major oral health issues. It will include factors influencing product development for dentistry brought to life using real-world examples from a career working in a consumer healthcare company.

J. Leslie Winston, DDS, PhD, is Director, Global Professional & Scientific Relations, P&G Oral Health. Dr. Winston received her DDS in 1988 from The University of Iowa and her PhD in Oral Biology in 1995 from the State University of New York at Buffalo as well as her Certificate in Periodontology. Her work experience includes private practice, academics, clinical trials research, and technology development. In her current role, she is responsible for promoting the science of Proctor & Gamble to the dental community and dental professional organizations.

WHEN TO TREAT – WHEN TO REFER

This presentation will address practical guidelines to assist the clinician with therapeutic decisions in managing and maintaining the periodontium for periodontal diseases. Cases will be presented along with treatment performed. Alternative treatment options will be discussed in light of therapeutic outcomes. Topics to be included in this presentation include recognition of the role of the bacteria and the host response in different periodontal diseases and rationale for different therapies and referral.

Janet M. Guthmiller, DDS, PhD, is Associate Dean for Academic Affairs and Professor, Department of Periodontology, University of North Carolina Chapel Hill School of Dentistry. Dr. Guthmiller received her DDS in 1988 from The University of Iowa and her Periodontal Certificate and PhD in Cellular and Structural Biology from the University of Texas Health Science Center at San Antonio. She previously served as full-time faculty at the University of Maryland and the University of Iowa where she was involved with predoctoral and postdoctoral education, maintained a private practice and performed research on periodontal pathogens and innate antimicrobials.

At the completion of the entire program, participants should be able to:

- Define what is meant by a “diagnostic test” and describe when they are used;
- Describe what is meant by the terms: sensitivity, specificity, positive predictive value, negative predictive value, and accuracy;
- Understand how to make choices from among several competing diagnostic testing modalities;
- Know the challenges associated with merging research interests between academic, government, and industry;
- Learn what kind of evidence supports the advertising claims we see in our journals and practices;
- Understand the rationale for differentiating among periodontal diseases;
- Understand the factors involved in making a decision to refer to a periodontist and appreciate the referral benefits; and
- Understand the timing of referring to a periodontist.

General Information

The College of Dentistry and the Center for Conferences will make every reasonable effort to assure that requested continuing education programs are provided, but assumes no liability for failure to deliver beyond the refunding of any fees paid to The University of Iowa. The University of Iowa reserves the right to limit registration to the size of the available classroom space. Sponsorship of this course does not imply subject matter, product or technical endorsement. This material is offered to the profession for educational and informational purposes in a spirit of academic freedom.

Advance Registration: Because of the anticipated demand for football tickets and lodging, you are urged to register as early as possible. All registrants are requested to register prior to September 6, 2013.

Registration Options: Registrations will not be accepted without payment. You may register using any of the following methods:

- Online registration, Go to: www.continuetolearn.uiowa.edu/UIConferences/ and then click on Dental Conferences
- Mail your registration form and check or credit card information to the address indicated
- Phone your credit card registration to the Center for Conferences using the toll free number: 1-800-551-9029 (local 335-4141)
- Fax your credit card information to Center for Conferences: 1-319-335-4039

Cancellations/Refunds: Fees paid will be refunded less a $40 per person processing fee following notice of cancellation. For registrations charged to your credit card, the refund will be credited to your account. If insufficient enrollment necessitates canceling a course, all fees will be refunded. Refunds will not be granted for cancellations received after the course begins.

Continuing Education Credit/Record Keeping: CEU verification will be provided (by mail following the program) only for those individuals completing/submitting a CEU card at the completion of the program. Credit will be appropriately adjusted for those individuals who do not attend the entire program. All attendees are encouraged to submit the CEU card which will generate a letter documenting attendance at the program.

Reunion Activities: A special invitation is extended to members of reunion classes. Efforts will be made to help class members sit together during the dinner and football game. Members of these classes should register early and BE SURE TO SPECIFY CLASS YEAR ON APPLICATION. All of our group planning depends on knowing who will attend from each class! If you do not state your year, seating with your class cannot be guaranteed.

Dinner: The Alumni Weekend will feature a no-host social hour and dinner at the Holiday Inn and Conference Center at I-80 and First Avenue (Exit 242), Coralville. Reunion classes and honorees will be seated at specially-marked tables. Presentations will be made to the honored Dental Alumnus of the Year and the Distinguished Educator of the Year. The cost is $60 per person.

Football Tickets: Tickets for Iowa vs. Western Michigan on 9/21 ($60 each plus a $1 per ticket handling fee) are available on a very limited basis (limit 2 tickets per registration). Ticket requests will be filled until supply is exhausted. To order tickets, you must register and prepay for the continuing education program. Tickets will not be mailed. Payment for tickets cannot be refunded except when ticket supply is exhausted during the pre-registration period. Tickets cannot be transferred with a registration to another course.

Parking: Parking is included with the course registration.

Housing: A block of rooms has been reserved for Thursday, Friday and Saturday evenings (September 19, 20, and 21) at the local hotels listed below. Reservations must be made by August 12. It is the responsibility of registrants to reserve their own lodging. When making your reservations, please indicate that you are attending the College of Dentistry’s Dental Alumni Weekend. In order to serve as many alumni as possible, reservations will be limited to one room per person.

- Holiday Inn and Conference Center (Formerly the Clarion Hotel/Ironman) at 319-351-5049 – Code: UI Dentistry Reunion
- Hampton Inn (connected to the Holiday Inn) at 319-351-6600 – Code: UI Dentistry Reunion

Note: During football season, all hotels require a mandatory two-night stay.

For further information about continuing education programs, please contact: Ms. Penni Ryan, Director, Continuing Dental Education, The University of Iowa, 346 Dental Science N, Iowa City, IA 52242-1010, 319/335-7166, email: penni-ryan@uiowa.edu

Individuals with disabilities are encouraged to attend all University of Iowa sponsored events. If you are a person with a disability who requires a reasonable accommodation in order to participate in this program, please contact Penni Ryan in advance at 319-335-7166.
