THE TERMINAL DENTITION: A LONG ROAD TO DENTAL HEALTH
This presentation will review the challenges of treating patients with a terminal dentition and the available treatment alternatives.

Nancy Chaffee, D.D.S., M.S., F.A.C.P., received her D.D.S. degree in 1985 from the University of Iowa College of Dentistry and her M.S. and Certificate from Iowa in Prosthodontics in 1990. She received her American Board of Prosthodontics certification in 1993. Since 1988, Dr. Chaffee has held academic appointments at the University of Iowa, The Ohio State University, the University of Nebraska Medical Center, and most recently the University of North Carolina where she served as Graduate Prosthodontics Program Director until 2001. She is currently in private practice in Apex, NC.

BEHAVIOR MANAGEMENT OF PEDIATRIC PATIENTS AND THEIR PARENTS IN THE DENTAL OFFICE
This presentation will explore behavior management of children in the dental setting. Philosophy, equipment, office décor, technology and psychology can all be utilized to make treating children enjoyable and fun.

Daniel Glenn, D.D.S., M.S., received his D.D.S. from the University of Iowa College of Dentistry in 1985 and his M.S. from The Ohio State University in 1988. He served as a U.S. Navy Dental Corp Dental Officer from 1985-1988 and has been in private practice since 1990 in pediatric dentistry in Inver Grove Heights, MN.

VESICULOBULLOUS DISEASES: CLINICAL PRESENTATION, DIAGNOSIS AND MANAGEMENT
This will be dedicated to a discussion of the clinical and historical features of vesiculobullous conditions. Throughout the course, cases will be presented to illustrate the process of patient evaluation and to serve as a basis for the discussion of management alternatives.

Sherry Timmons, D.D.S., Ph.D., Assistant Professor, Department of Oral Pathology, Radiology and Medicine, College of Dentistry, University of Iowa. Dr. Timmons received her D.D.S. degree in 1995 from the University of Iowa College of Dentistry, her Ph.D. in oral science from Iowa in 2001, and completed a general practice residency in 2002. She became a faculty member in the Department of Oral Pathology, Radiology and Medicine in 2002.

At the completion of the entire program, participants should be able to:
• Recognize the emotional and physiologic challenges faced by patients with a terminal dentition,
• Understand the treatment alternatives available to develop a treatment plan to restore a patient to dental health,
• Understand the clinical steps required to treat patients with a terminal dentition,
• Understand and implement a philosophy and techniques for managing child behavior in the dental office,
• Recognize the clinical and historical features of a variety of vesiculobullous conditions affecting the head and neck region, and
• Appropriately manage a variety of autoimmune conditions affecting the head and neck region.
