2:00-3:00 Ways to Improve Removable Prosthetic Outcomes for Your Geriatric and Special Needs Patients — Dr. Rohit Nair
3:00-3:15 Break
3:15-4:30 Ageism: An Important Barrier to Age-Appropriate Care — Dr. Leo Marchini
4:30 Adjourn

PROGRAM FACULTY
• Aditi Jain, B.D.S., M.S., Clinical Assistant Professor, Department of Operative Dentistry
• Natalia Restrepo-Kennedy, D.D.S., M.S., Clinical Assistant Professor, Department of Operative Dentistry
• Fabricio Teixeira, D.D.S., M.S., Ph.D., Professor and Head, Department of Endodontics
• Megumi Williamson, D.D.S., M.S., Ph.D., Assistant Professor, Department of Periodontics
• Rohit Nair, B.D.S., M.D.S., Clinical Assistant Professor, Department of Preventive & Community Dentistry
• Leo Marchini, D.D.S., M.S.D., Ph.D., Associate Professor, Department of Preventive & Community Dentistry

AT THE COMPLETION OF THE PROGRAM, PARTICIPANTS SHOULD BE ABLE TO:
Jain and Restrepo-Kennedy:
• Discuss important considerations when choosing an efficient curing light and best practices for more predictable light curing;
• Discuss newer dental adhesives and the best practices for successful dental bonding; and
• Discuss indications, contraindications, advantages and disadvantages of bulk-fill resin composites.

Teixeira:
• Comprehend the impact of trauma as the primary etiological element for these conditions;
• Recognize the treatment alternatives and proper approaches on immature permanent teeth with apical periodontitis;
• Understand the benefits of CBCT, new technologies, and materials; and
• Identify the paramount evidence-based treatment outcomes.

Williamson:
• Learn types of lasers and applications in dentistry including periodontics; and
• Review the literature on the latest evidence on the efficacy of laser therapy in periodontics.

Nair:
• Identify oral features favorable to the use of mechanical/adhesive retention aids for partial and complete dentures in geriatric and special needs patients;
• Implement strategies for prevention of dental caries on tooth areas adjacent to retentive elements of partial and complete denture; and
• Recognize online and mobile app-based oral health information resources available to geriatric and special needs patients and their caregivers.

Marchini:
• Define ageism and list its consequences to the society, and in particular to health care;
• Assess how ageism can affect oral health care; and
• Self-assess for ageism.
