The Program and Objectives:
The development of new dental materials has proceeded so rapidly that many clinicians are left confused by the wealth of new products that are available in many areas. This course will present the latest information available on current dentin/enamel adhesives, composite resins, and light-curing technology. It also will cover contemporary cements, a complex and confusing area that is important to the success of our routine indirect restorations and esthetic cases. Information provided will be based on scientific evidence, but the clinical use of all materials will be emphasized.

At the completion of the course, participants should be able to:
• Explain how dentin bonding systems work.
• Refer to the four current strategies for bonding to tooth structure, including the self-etch and universal systems.
• Describe the benefits of contemporary composites, including bulk-fill materials.
• Define current concepts of visible light-curing.
• List the various types of cements for indirect restorations, and explain when they should be used.

Program Schedule:
8:00 a.m.     Registration, College of Dentistry, First Floor
8:30          Introductions – Ms. Penni Ryan
8:35          Dentin and Enamel Adhesives
9:45          Refreshment Break
10:00         Composites
12:00         Lunch
1:00 p.m.     Light-Curing
2:15          Refreshment Break
2:30          Contemporary Cements
4:30          Adjourn
Program Faculty:
Ed Swift, DMD, MS
Dr. Ed Swift received his D.M.D. degree from the Medical University of South Carolina and a master’s degree in Operative Dentistry from the University of Iowa, where he served on the Operative Dentistry faculty for several years. He is currently the Associate Dean for Education at the University of North Carolina School of Dentistry, Chapel Hill, North Carolina. He is a fellow of the American Academy of Esthetic Dentistry and the Academy of Dental Materials, and a founding member of the Society for Color and Appearance in Dentistry. He has published over 200 journal articles and is a co-editor of a leading dental textbook, *Sturdevant’s Art and Science of Operative Dentistry*.

FEES: No Charge
CE CREDIT: 7 hours relicensure credit/Lecture Course

PLEASE REGISTER BEFORE JANUARY 1, 2016

GENERAL INFORMATION

The College of Dentistry and the Center for Conferences will make every reasonable effort to assure that requested continuing education programs are provided, but assumes no liability for failure to deliver beyond the refunding of any fees paid to The University of Iowa. The University of Iowa reserves the right to limit registration to the size of the available classroom or clinical space. Sponsorship of this course does not imply subject matter, product or technical endorsement. This material is offered to the profession for educational and informational purposes in a spirit of academic freedom.

PRE-REGISTRATION: Please send an email to penni-ryan@uiowa.edu to register.

CONTINUING EDUCATION CREDIT/RECORD KEEPING: CEU verification will be provided (by email following the program) only for those individuals completing/submitting a CEU card at the completion of the program. Credit will be appropriately adjusted for those individuals who do not attend the entire program. All attendees are encouraged to submit a CEU card which will ensure that a letter documenting attendance will be sent following the program. The University of Iowa College of Dentistry designates this activity for 7 hours continuing education credit (0.7 CEU).

PARKING: Parking will NOT be included with the course registration.

LUNCH: Will be included.

Ms. Penni Ryan, Director | Continuing Dental Education | The University of Iowa
