Welcome

Virtual Desktop lets you run applications remotely without installing them on your computer. To view what applications are available, log in using your HawkID.

If you have problems using Virtual Desktop or any application, please visit the Virtual Desktop Support Center @ <http://helpdesk.its.uiowa.edu/virtualdesktop> or contact the ITS HelpDesk at 384-HELP or <mailto:its-helpdesk@uiowa.edu>.

Current browser security restrictions may prevent you from launching applications, or may require your explicit permission to proceed. To launch an application successfully, save the launch file if prompted and double-click the file to start the application.

Please note: The software available through the Virtual ITC is to be used for activities related to your role at the University of Iowa. The license agreements with the software publishers dictate that software is not available for personal or non-University of Iowa activities.

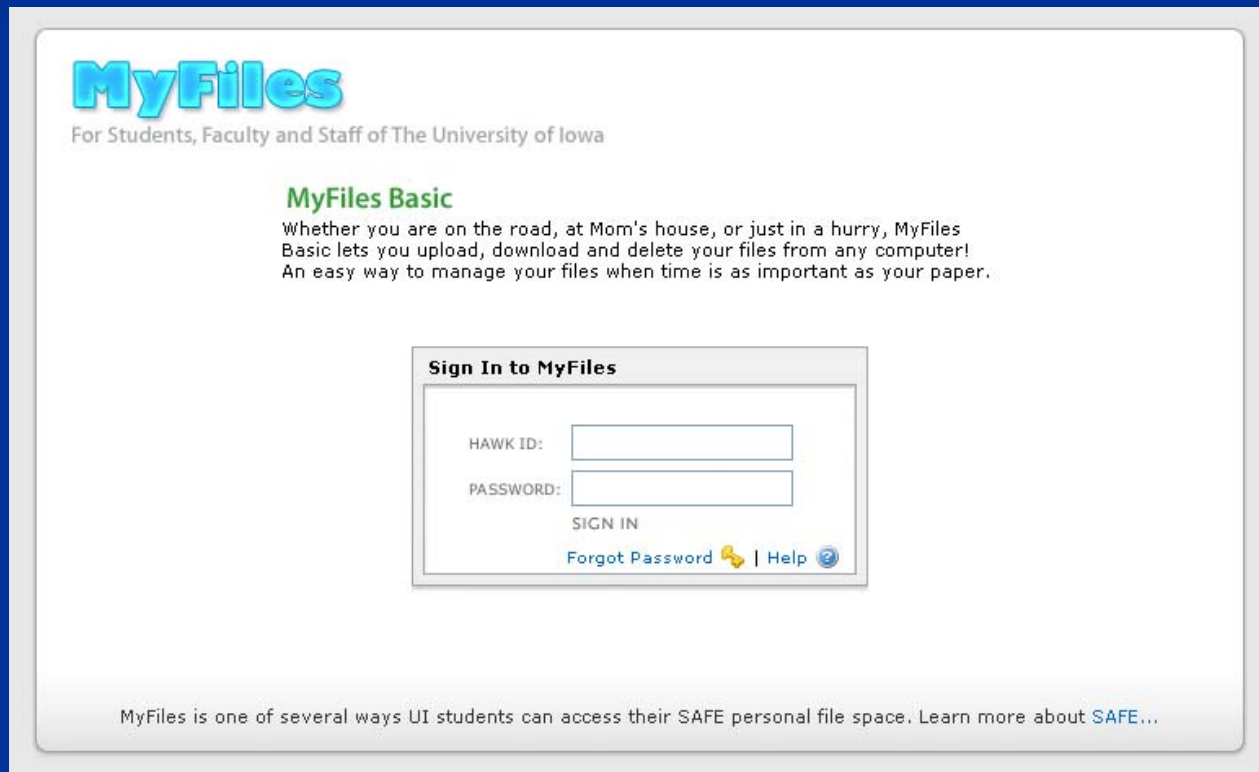

This service will be unavailable from approximately 2:30 AM to 3:00 AM every Sunday due to a short scheduled outage for server maintenance.

H:/ Drive, a SAFE place

- 100 MB for each of UI students
- Accessible through <http://myfiles.uiowa.edu>

The screenshot shows the MyFiles login interface. At the top left is the 'MyFiles' logo in blue, with the text 'For Students, Faculty and Staff of The University of Iowa' below it. In the center, there is a section titled 'MyFiles Basic' with a green header. The text below reads: 'Whether you are on the road, at Mom's house, or just in a hurry, MyFiles Basic lets you upload, download and delete your files from any computer! An easy way to manage your files when time is as important as your paper.' Below this is a 'Sign In to MyFiles' box containing two input fields: 'HAWK ID:' and 'PASSWORD:'. Below the password field is a 'SIGN IN' button. At the bottom of the sign-in box are links for 'Forgot Password' (with a key icon) and 'Help' (with a question mark icon). At the very bottom of the page, there is a small line of text: 'MyFiles is one of several ways UI students can access their SAFE personal file space. Learn more about SAFE...'
